Note — The Supreme Court's term begins each year on the first Monday in October and ends, usually, in the following June. Opinions (and orders and other documents) issued by the court are published officially in United States Reports ("U.S." in citations), commonly referred to as "U.S. Reports." See 28 U.S.C. § 411; see also information about opinions at the court's web site.

The base of pastel chalks is calcium sulfate (CaSO₄), which is derived from gypsum (CaSO₄ · 2H₂O), an evaporite mineral formed by the deposition of ocean brine; it also occurs disseminated in limestone. Chalk and dehydrated gypsum thus have similar origins and properties. Pastels also contain clays and oils for binding, and strong pigments.

A statement that describes invariable relationships among phenomena under a specified set of conditions. Boyle's law, for instance, describes what will happen to the volume of an ideal gas if its pressure changes and its temperature remains the same. The conditions under which some physical laws hold are idealized (for example, there are no ideal gases in the real world), thus some physical ...
