Index for Numbers and Symbols Math terminology relating to arithmetic, number sets, and commonly used math symbols.

Mathwords: Index for Numbers and Symbols

This is a list of mathematical symbols used in all branches of mathematics to express a formula or to represent a constant.. A mathematical concept is independent of the symbol chosen to represent it. For many of the symbols below, the symbol is usually synonymous with the corresponding concept (ultimately an arbitrary choice made as a result of the cumulative history of mathematics), but in ...

Emily Guerin (2004-06-18; e-mail) The Equal Sign Who was the first person to use the modern equal sign? A very elongated form of the modern equality symbol (=) was introduced in print in The Whetstone of Witte (1557) by Robert Recorde (1510-1558) the man who first introduced algebra into England. He justified the new symbol by stating that no two things can be more equal than a pair of ...
