The trip takes around seven months; a bit longer than astronauts currently stay on the International Space Station. The precise duration of each journey depends on when it is taken.

How long does it take to travel to Mars? - A Mission to ...

An artist's concept portrays a NASA Mars Exploration Rover on the surface of Mars. The two identical, golf-cart sized, solar-powered rovers: Spirit and Opportunity were launched in 2003 and landed on Mars in January 2004. Each rover was built to have the mobility and toolkit for functioning as a robotic geologist. Opportunity Was A Twin

Opportunity Was A Twin - NASA Bids Farewell To ...

The possibility of life on Mars is a subject of significant interest to astrobiology due to its proximity and similarities to Earth. To date, no proof has been found of past or present life on Mars. Cumulative evidence shows that during the ancient Noachian time period, the surface environment of Mars had liquid water and may have been habitable for microorganisms.
