To avoid this, a left-handed child needs to be coached from as early as possible, to differentiate between 'reading position' and left hand 'writing position' of the page/book.. Even when colouring in or drawing, a preschool child that uses her left hand should be encouraged to become familiar with this rotated page-orientation.

Question: "What does it mean that we should not let our left hand know what our right hand is doing (Matthew 6:3-4)?" Answer: In the Sermon on the Mount, Jesus said, "But when you give to the needy, do not let your left hand know what your right hand is doing, so that your giving may be in secret. Then your Father, who sees what is done in secret, will reward you" (Matthew 6:3-4).

The home row is a key concept in typing (sorry for the pun!). It is that middle horizontal row of the keyboard that starts with A and goes all the way across. The idea behind the home row is that each finger remains in light contact with a particular key there when it is not typing in order to keep "grounded", providing a reference point for every other key.

Left-handedness is the preference to use the left hand more than the right hand for daily activities such as writing or using tools. Most people can use either hand for many things. However, people

very often have a definite preference for using the left or right hand for things such as: using a pen, using a knife, using scissors, brushing teeth, blowing their nose, and so on.

The average lift in brand recall was thus 89% by having the logo on the left instead of the right. This is one of the biggest differences we have seen in user-experience metrics from such a small layout change.. Users were significantly more likely to recall the hotel name when it was presented on the top left, compared to logos presented in the top-right corner.
