### **Phonology As Human Behavior Theoretical**

Phonology is a branch of linguistics concerned with the systematic organization of sounds in spoken languages and signs in sign languages. It used to be only the study of the systems of phonemes in spoken languages (and therefore used to be also called phonemics, or phonematics), but it may also cover any linguistic analysis either at a level beneath the word (including syllable, onset and ...

Pirahã (also spelled Pirahá, Pirahán), or Múra-Pirahã, is the indigenous language of the isolated Pirahã of Amazonas, Brazil. The Pirahã live along the Maici River, a tributary of the Amazon River.. Pirahã is the only surviving dialect of the Mura language, all others having become extinct in the last few centuries, as most groups of the Mura people have shifted to Portuguese.

Human resource management (HRM), the management of work and people towards desired ends, is a fundamental activity in any organization in which human beings are employed. It is not something whose existence needs to be elaborately justified: HRM is an inevitable consequence of starting and growing an organization. This article focuses on the scope of HRM and its major subfields.
