The Looking Glass War is a 1965 spy novel by John le Carré. Written in response to the positive public reaction to his previous novel, *The Spy Who Came in from the Cold*, the book explores the unglamorous nature of espionage and the danger of nostalgia. The book tells the story of an incompetent British intelligence agency known as The Department and its multiple botched attempts to verify a ...

Near-future space science fiction almost by definition has the same shared background of a large human presence in space. Practically no SF stories are about the deep space adventures of an automated space probe, they are mostly about astronauts (with or without the Right Stuff) traveling to other planets and doing things. This got started in the early 1940's, since back in that innocent age ...

God the creator father of all, states in his written works that 666 mark of the beast (implanted in the body devices) are a primary way to identify what and who are of the beast. The use of "implanted in the body devices" is a sign of a great evil from the beast. In human terms the beast is an unreasonable action not unlike an unjust law.
